

The Link Between Listening and Doing

Betterworks Engage helps leaders have honest conversations with their teams, identify opportunities, and prioritize the actions that build trust, improve engagement, and drive business decisions.

Betterworks Engage solutions are built to move your engagement strategy from feedback to action.

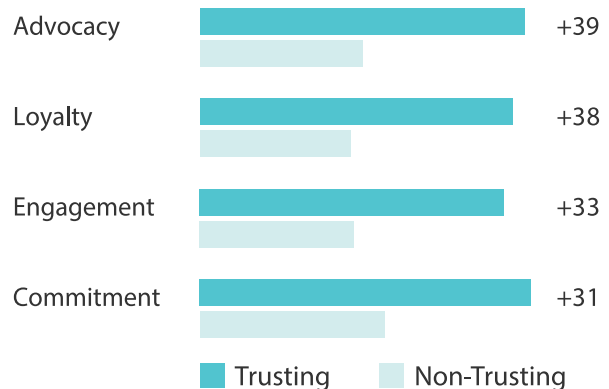

We combine behavioral science, advanced analytics and industry benchmarks to guide you on the most critical engagement drivers that matter to your employees and tools to improve them.

FACT

Employees who have trust in their employer are more engaged, stronger advocates for the brand and remain far more loyal than those who lack trust.

Source: 2019 Edelman Trust Barometer Global Report

Ensuring that we keep our global team engaged while listening to them in real-time was always a challenge. But Betterworks has helped us change this from a challenge to a strength.

Build a more engaged culture

Make your employees feel like they belong with surveys, pulse polls and real time conversations that help your leaders listen and take action without leaving the workstream:

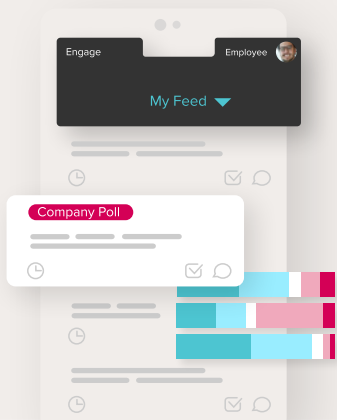

Surveys

Activate instant surveys and gather continuous feedback at any stage of the employee lifecycle.

Create custom Action Plans based on real time survey results

Ask the most relevant questions everytime with access 100+ benchmarked questions or customize your own right on the spot

Survey specific teams or the entire organization using time and event based launch triggers

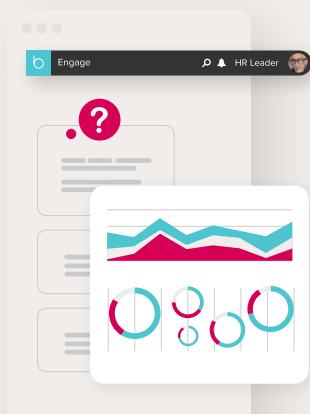

Polls

Tap a real-time, continuous pulse on your teams or the whole organization any time, anywhere.

Stay proactive by spotting emerging trends early and create proactive step-by-step actions plans with powerful analytics

Configure and launch pulse polls to specific teams or the whole organization in just a few clicks

Customize the frequency and capture consistent pulses using time or event based launch triggers

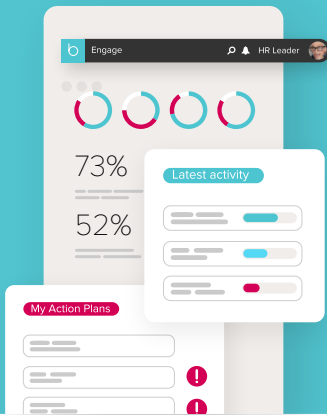

Voice

Start honest conversations and tap the wisdom of the crowd with two-way channels.

Insights analyze conversations and identify the best opportunities to make a positive impact.

Dedicated two-way channels create honest conversations and help leaders open the conversation with employees

Algorithms pre-digest multiple conversations to help you understand the sentiment behind what you are hearing

Recommendations

Powerful analytics that drive action.
Continuous listening.
Perspective insights.

Instantly see pulse, survey and voice data in sophisticated visualizations that slice and dice just what you need

Consumable, bite sized advice that helps leaders prioritize what to do next and make a bigger impact

Focus leaders with role-based access that lets them slice and dice their most relevant data
