# Easily Connect Betterworks with the Systems Your Organization Uses Everyday

## Productivity

Native integrations in your favorite productivity applications:

Employees can update progress right in the flow of their day to day work.

## Featured Integration

Privately view and update your goals from any channel, give public recognition, and stay updated about any cheers, nudges, @mentions, and other activity or actions.

## Single Sign On

Securely access Betterworks from one user ID

## Communication

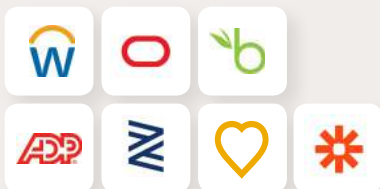

Streamline information and communication with your favorite workflow applications:

Keep goals and objectives front and center

Easy to give real-time feedback and recognition

Quickly update goal progress without leaving your application

## HRIS

Two-way integrations with your HRIS applications:

Add your people data into Betterworks on a regular schedule to stay up to date with new hires, management changes and re-organizations.

Continuously share performance ratings or other talent segmentation insights back to your HRIS for compensation and calibration processes.
